

Class III

Date – 06-05-20

D) Name the eight planets in the solar system.

- | | | |
|-----------|-----------|------------|
| 1)Mercury | 4)Mars | 7) Uranus |
| 2)Venus | 5)Jupiter | 8) Neptune |
| 3)Earth | 6)Saturn | |

E)Answer the following

Q1)what is the Solar system?

Ans) The Sun and the eight planets form a family , known as the **Solar system**.

Q2) Why is life possible only on Earth?

Ans) Life is possible only on the Earth because of existence of air and water on it.

Q3) Who was Ferdinand Magellan ?

Ans) Ferdinand Magellan was an explorer. He and his companion were the first to sail around the earth . His voyage proved that the earth is round and not flat.

Q4) Why is the Earth called the ' blue planet' ?

Ans) The Earth looks blue from space because its major part is covered with water . The Earth is, therefore, called the blue planet.

Q5) Differentiate between horizon and coast .

Ans) The place where the sky and the land seem to meet is called the horizon whereas the place where the land and sea meet is called the coast.

Homework : write the exercises in school copy and learn them.

Concerned teacher : Miss.Elora Chowdhury. Mrs. Premita Nag

Miss Shalini Kuzur
